PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning engineering student with hands-on experience in NLP pipelines, text classification, LLM-powered resume processing and predictive modelling. Experienced in coordinating student technology events and presenting academic research. Interested in AI/ML engineering and Python-based software development.

EXPERIENCE

Artificial Intelligence & Machine Learning Intern | InLighN X Global Pvt. Ltd. **Oct 2025 – May 2026**

- Built NLP feature-extraction pipelines, text-classification workflows and LLM-powered resume-processing workflows using Python and Scikit-learn.
- Integrated custom AI APIs into interactive web applications and worked with GitHub CI/CD workflows.
- Optimized supervised-learning models through preprocessing and feature engineering; resume-reported model prediction accuracy improvement: 15%.

PROJECTS

AI Resume Optimizer & Career Readiness Platform | InLighN X Internship, 2026 — NLP/LLM pipelines to process resume text and deliver actionable career feedback.

SMS Spam Detection System | InLighN X Internship, 2026 — Python and Scikit-learn text classifier to identify spam SMS messages.

Eye Life – Eye Banking Management System | Academic, 2025–26 — Donor–recipient matching platform using Python and relational SQL; research paper presented at a National IEEE technical paper presentation.

AgriMind | Final-year project — AI-driven precision-agriculture decision-support concept covering soil analysis, crop recommendations and plant-disease assistance.

LEADERSHIP & EVENT COORDINATION

Event Coordinator: Matrix Fusion 4.0 — 24-hour National Level Hackathon (2026); PINNACLE — 3-day International Level Tech Symposium, including Project Expo & Tech Fest (2026); FusionVerse 1.0 — institute-level AI & ML hackathon (14–15 May 2026).

Participant: Quoria AI Summit 2026, held as part of PINNACLE (29 October 2026).

CERTIFICATIONS & ACHIEVEMENTS

- **Infosys Springboard:** Computer Network & Internet Security — 25 Nov 2025.
- **AlgoUniversity:** GEN-AI Camp — Generative AI, multimodal AI systems and NLP (certificate shared).
- **InLighN X Global:** Professional Certification in AI & Machine Learning (2026).
- **IEEE:** Technical Paper Presentation participation certificate for Eye Life — 9 Mar 2026.
- **HACKABHIGNA:** National-level 24-hour hackathon finalist, AIT Chikmagalur (2026).

TECHNICAL SKILLS

AI/ML: NLP, LLMs, Computer Vision, Feature Engineering, Neural Networks, Predictive Modelling
Frameworks & Tools: TensorFlow, PyTorch, Scikit-learn, OpenCV, Keras, Git, GitHub, CI/CD, VS Code
Programming & Database: Python, SQL

EDUCATION

B.E. Artificial Intelligence & Machine Learning | Yenepoya Institute of Technology (VTU), Moodbidri, Karnataka
Expected March 2027 | CGPA: 7.0/10.0 **Class 12:** B.G.S PU College, Balehonnur (2023)
